## Big Mexican Army Menaces 'Rebels' In Sonora State

*Foe Is Moving on Sonora by Way of Chihuahua--Main Army Moving North From Capital -- Belligerent Forces Occupy Stragetic Points as New Battle Is Imminent*

(By Associated Press)

Washington, April 23.—American government representatives in Mexico have asked for the despatch of warships to that country to protect American citizens and their property.

The request came from Mexicalia and Topobamco on the Pacific Coast and Frontera on the Gulf Coast.

Officials of the State, War and Navy Department are investigating the request, explaining that in times of disturbances in the southern republic it is not unusual to receive requests for warships when there is no need of them.

**Aguaprieta, Sonora, Mexico, April 23.—Grouping of troops of the Carranza and Sonora state governments at concentration and strategic points for the campaign brought on by the assumption by Sonora of a revolutionary status, continued today.**

The vanguard of federal troops expected to attack Sonora from Chihuahua were reported encamped at Ojitos, while 7,000 additional troops left Buena Vista, near Mexico City, for the north Sunday night, papers received from the capitol said. More than 1,000 Mayo Indians were enroute to join as many more Mayos and Yaquis already in this district.

**Indians To Take Part**

Presence of the Yaquis and Mayos in eastern Sonora was said to indicate the state government expected its hardest battle in this section. The indians are described as the best fighters in Mexico. All are veterans of hard campaigns and many of them fought in the last revolution which raised President Carranza to power.

The proclamation Gen. P. Elias Calles, commander-in-chief of the Sonora army, announced he would issue today was awaited with some interst. He said upon his arrival here last night the Sonora movement had resulted in establishment of a new party in Mexico, "the new party of progress," and his statement would be issued in behalf of it and Sonora.

Military intelligence officers of Sonora at Nogales made public today an alleged attempt of Carranza officials to lure employees of the Sonora customs service to the federal side. It was charged many were offered pay to leave the Sonora government and some did leave.

**Americans Given Passports**

Passports issued to American citizens and vised by Carranza consuls are not being accepted by Sonori immigration officials. Americans now are compelled to have new passports issued and vised by the Sonora commercial agents who act as consuls at border cities in the United States.

Andreas Garcia, a postmaster general of Mexico, at Laredo, yes- y characterized the Sonora re- ainst the Carranza governs of "slight importance," it is lamentable the Am- ess is giving such prom- the Sonora situation.

## OVERLAND HAS NOT ABANDONED PLANT PLANS

### Location of Engine Plant Here Certain and May Be Larger, Says Manager Edwards — Says 500 More Men Needed

There has been considerable rumor concerning the proposed building operations of the Willys-Overland Company. The Chronicle-Telegram has been endeavoring to run these rumors down and in most cases has found much that has been said without the least foundation for it.

Some time ago, for example the Chronicle-Telegram was given what it supposed to be accurate information to the effect that the Willys-Overland had put up its property, the hundred acres or more which it recently purchased, for sale, and which information could have been construed in no other way than that they had abandoned the general project of building engines here as originally planned.

**Plant Erection Certain**

This paper investigated the matter thoroughly, and found there was not one particle of truth in the statement and that there was no change in the plans other than that which is incidental to delays in many building operations just at this time.

Such rumors reached the Cleveland Press and the Chronicle-Telegram is in receipt of a letter which is self-explanitory from the manager, Mr. Edwards of the Willy-Overland company. The citizens of Elyria are entitled to know the facts, whatever they are. The Chronicle-Telegram has been endeavoring to place these facts before the people.

The only ground there was for any of this rumor was the proposed leasing of the property for the season to some one, but the Chronicle-Telegram learned that in this lease even for one year, there was the provision that in case the leasor, namely the Willys-Overland Co. desired to use the property before the maturity of a crop, that it could do so on payment of the incidental expense involved in putting in the

## School Boys Have Miraculous Escape When Canoe Upsets

*Orlando Hurst and Ralph Brouse Riding East Branch Rapids When Canoe Capsizes—Rollin Haines and Ted Loughry Endanger Lives in Rescue Just Ahead of Falls—All None the Worse for Flirting With Death Experience*

Two Elyria High school seniors, Orlando Hurst and Ralph Brouse, narrowly escaped death by drowning in the east branch of Black River when a canoe in which they were riding was upset and they were thrown into the water.

**Canoe Hits Whirlpools.**

The river is very high and the boys conceived the idea of shooting the rapids starting near the Haserodts homestead on East avenue. As they approached Wolfe court the canoe was caught in the swiftly whirling eddies and upset.

Their predicament was observed by Ted Loughry and Rollin Haines who were watching for them, and they at once started to rescue them. Brouse who could not swim managed someway to reach the bank while Hurst was swept down the river. Haines and Loughlry hurried to the Fourth street bridge in an automobile and took to the water. They grabbed the canoe with Loughry clinging to it and all three managed to reach the bank in safety.

**Spectacular Rescue.**

The rescue came just in time as the canoe within a short time would have been swept over the east falls at the mill dam and Hurst would undoubtedly have lost his life. It was a narrow escape and the boys who effected the rescue are entitled to great credit for their courage.

## SUPREME COURT TO DECIDE OHIO CASE

### Ohio's Highest Tribunal Asks Decision on Referendum Proceedings In Liquor and Suffrage Amendments

(By Associated Press)

Washington, April 23.—The supreme court today begins consideration of whether federal constitutional amendment must be submitted to the voters for ratification in states having referendum provisions in their constitution.

The question is involved in appeals from Ohio Supreme Court decrees, sustaining the state constitutional referendum amendment and dismissing injunction proceedings brought to enjoin submission of the prohibition and women's suffrage amendment to popular vote.

The case is the first of its kind to reach the Supreme Court and upon the court's opinion it is asserted would depend whether the women of the country would be able to vote at the forthcoming presidential election.

The general question was argued at length recently before the Supreme court in the prohibition cases. At that time, however, attorneys on both sides admitted that no matter how the court ruled the prohibition situation would not be affected as sufficient states already had ratified the amendment without the so-called referendum states.

**DROPS OF MAGIC! LIFT OUT CORNS**
Sore, touchy corns stop hurting, then lift right out with fingers

For a few cents you can get a small bottle of the magic drug freezone recently discovered by a Cincinnati man.

Just ask at any drug store for a small bottle of freezone. Apply a few drops upon a tender, aching corn or callus and instantly all soreness disappears and shortly you will find the corn or callus so loose that you lift it off with the fingers.

Just think! Not one bit of pain before applying freezone or afterwards. It doesn't even irritate the surrounding skin.

Hard corns, soft corns, or corns between the toes, also hardened calluses on bottom of feet, shrivel up and fall off without hurting a particle. It is almost magical.

Ladies! Keep a tiny bottle on the dresser and never let a corn or callus ache twice.

## BRYAN AND THE DEMOCRATIC CONVENTION

According to returns at this writing it appears that liam Jennings Bryan has been elected as a delegate n Nebraska to the National Convention of the Dematic party which is to convene in San Francisco. The st significant fact in relation to the vote in Nebraska hat Mr. Bryan led all of the candidates for the contion in all of the precincts as far as heard from at writing, outside of the city of Omaha, which has alys been against him and liquor ruled.

While we do not believe it would have eliminated yan or Bryanism as a tremendous factor in the Dematic party had be been defeated, yet there is no one who will question that Bryan's personality, his ideas l his genius for stating them will really be the domting factor in the National Convention if the final ures show that he has been elected.

In a man's home state, in the locality where he is t known, personal animosities and personal weakses, due to peculiar eccentricities are likely to militate inst a strong individual. But, at a distance, the ideas which the man stands pre-eminent above other men he dominating factor in determining his popularity l his power.

This is the real explanation of Mr. Bryan's power oughout the nation and his relative weakness in his n state. It appears that Mr. Bryan has one of the leagues with him so that he gained half really of the egates at large from Nebraska.

He will stand against a wet plank in the Demotic platform. He will stand positively for prohibin in the Democratic platform. He will stand for proneed progressive views and pronounced government nership of the railroads. He will be for the League Nations with any amendment or reservations which necessary to obtain the majority in the senate, to the l of settling the matter in controversy.

The opposition to Mr. Bryan will be divided as to platform and as to the planks covering the points merated. But there will be no uncertainty in Mr. yan's position, and when it comes to a contest between tainty and uncertainty, between fixed position and nstant vacillation, the known quantity or fixed quany is likely to win.

To be sure the strength of the administration will thrown against Mr. Bryan's position in the conven and particularly on his two propositions of prohion and the League of Nations. But these are the o things in which Mr. Bryan will be particularly ong with the Southern Democrats and on one of them eive the support generally of the people throughout country, namely, the League of Nations.

We are only interested in the Democratic Conven from the standpoint of ones looking on and desir to see the best possible presented to the people and identally enjoy the merriment that naturally comes m two such antagonistic forces as will appear there d have appeared before, Bryan and his independent orts on the one side, Tammany and many of the ments that prey, upon the ot er.

## WHO IS THE FATHER OF THE CHILD?

General Wood in speaking the other day to a Lima dience, spoke of the League of Nations being an nerican child born upon foreign soil. He said that it ould be nurtured and taught the language of Washgton.

In reading over the history of the League of Naons conference and in examining the child that was rn there, we do not believe the General is exactly right his parentage. There is no question but what our resident desired to be the father of it. But also little uestion appears on examination that one if not both of e parents were entirely ignorant of American prinples and that about all that we can claim is to have en there and to have assisted at the birth. President ilson at least thinks he is father of the child. There e those who doubt it.

Most of us would like to Americanize the child. resident Wilson says he likes it as it is, and Senator hnson says he does not like the child under any circumstances and he wishes it to stay over in Europe here it belongs.

We recall a comic that used to be run considerably, a little baby looking for a home and of imagining that had found it and then finding some trouble arise and it eing forced to leave. We are afraid that this little waif ill soon be like the wandering Jew, it will be unable to ie because constantly discussed and yet find no place f rest for its tired feet.

## LORAIN IS GETTING RELIGION

It is planned that a number of the church people of lyria are going to Lorain to the evangelistic meetings n the evening of April 29th. This leads the Lorain imes-Herald to suggest that Elyria has to come to Lo-a'n for its religion. By suggestion, of course, the Loain Times-Herald admits that if this be true, the Elyria eople must be very hard up. But it pats itself on the ack, however, over the thought that the county seat olks are driven to that desperation.

The article did not discuss the brand of religion nor ... church people are going to look it over, ... to death, evidently, to think they have got it down there, and they hope to have it in larger doses.

The Lorain people must remember, though, in their ecstacy, that there is a general belief among many that intense religion is found about in proportion as extreme cussedness is also discovered in the same place. Because it is the Good Book itself that says, "Where wickedness abounds My grace doth much more abound."

Among the spectacular political fights of the country we must not forget to place Thomas W. Lawson of Massachusetts. He has announced himself in all the picturesque language which can come only from the author of "frenzied finance" as a delegate to beat the old machine. And what Tom says that he will do to them, if he is elected, reads like a page of the boastings of "Alkali Ike" in a dime novel.

The series of courtesies given for Mrs. Shaefer since her arrival in Elyria, her former home, have been unsually delightful and informal, each affair small but brinsing together groups of her old time neighbors and other associates for little intimate reminiscent sessions that have proven sunny chapters indeed in Elyria's social history.

Mrs. Smythe gave a lovely luncheon yesterday for Mrs. Shaefer at her home on Washington avenue, Mrs. Guthrie entertained a few of the honor guest's friends the evening prior and on Wednesday afternoon, Mrs. Ernest Mortimer gave a tea at the home of her mother, Mrs. J. C. Hill of Washington avenue.

Merriman's Circle of the Methodist Aid society gave a farewell party in the church parlors, for Mrs. Huff, at which time a splendid program was presented.

Mrs. Jump, presided, and Mrs. Henry Heidrick gave a delightful reading entitled, "The Value of a Friend." It was really a "friendship" program as each number had this greatest element of life for its theme.

crop. And the Willys-Overland would not even rent it for a short period under any other conditions.

**"Larger Than Planned"**

In conversation with the manager of the Willys-Overland recently the Chronicle-Telegram representative was informed that, while he could not state the exact time when the proposed larger extension would be undertaken, that there was no change in the plan but there was fully as much determination in carrying it out now as there was originally, if anything it would be larger than originally contemplated.

The seriousness of these false rumors lies in the halting of building operations and progress along housing lines at the very time when a thousand additional houses are needed in this city to take care of the immediate pressing needs.

The manager of one of the largest plants in Elyria declared to the editor of the Chronicle-Telegram within the past few days that if he could procure the men he would put on five hundred extra men immediately and says, he, "We can procure the men if we could get houses."

**Needs Many New Homes**

Every energy should be directed as far as it is possible to direct it, toward the building of homes to the end of filling the great need that Elyria has.

Dear Sir:

My attention has been called to a news item appearing in one of the Cleveland papers yesterday, to the effect that The Willys-Overland Company had abandoned its plans to erect engine works upon the property recently purchased by it in Elyria. This statement in the Cleveland paper and all rumors to the same effect are absolutely false and without foundation in fact.

The Willy-Overland Company will greatly appreciate the publication of this letter in your columns.

Very truly yours,

H. J. EDWARDS,

Manager The Willys Overland Company. Elyria Plant.

## 'BURNED WINGS' AT AMERICAN ON SUNDAY

Because he was a genius he found the road to fame paved with the difficulties usually confronting genius. Poverty came in at the door, but love did not fly out of the window. On the contrary, love stayed and suffered.

But the struggling artist eventually attained success. From the Latin Quartier in Paris, to a wonderful studio on Riverside Drive, was a gradual transition teeming with interesting and surprising events.

He thought his millionaire patron, James Cartwright, was responsible for his success. His gratitude turned to contempt when he learned of the latter's perfidy.

But someone was responsible. Was it his wife or was it the millionaire's daughter Helen, that beautiful girl who openly attested her love for him and through whose interest his work had received recognition.

Frank Mayo as Ned Templeton, the artist who found himself enmeshed in a chain of events quite beyond his understanding, learned the truth at last but the price that had been paid for his success was so tremendous that he would willingly have relinquished all he had gained.

How all misunderstandings finally were made clear and future happiness assured, is thrillingly pictured in the gradual unfolding of "Burnt Wings,' a splendid screen version of Bayard Veiller's notable stage success, "The Primrose Path," which will be shown at the American theatre Sunday and Monday.

FINDLAY: Jesse L. Augustine, 40, Eagle township farmer, whom authorities discovered in a Wood county cemetery Tuesday night endeavoring to exhume the body of his father, was adjudged insane in probate court and taken to a Toledo institution.

## PYTHIAN SISTERS OF OHIO IN FIGHT FOR POSSESSION OF HOME

Medina, O., April 22—Hattie A. Robinson, representing Pythian Sisters of Ohio, files action in Medina county, common pleas court for possession of the Pythian Sisters' Old Ladies' Home here.

Internal strife among Pythian Sisters of Ohio has been rife for many years.

The petition requests that "The Sophia Huntington Parker Home" management turn over the home to the Grand Temple of Pythian Sisters of Ohio.

Mrs. Hattie Mott, Cleveland, heads the former corporation and with her associates has been largely responsible for the building and conduct of the home up-to-date. She was defeated for re-election last year.

The petition recites that the home was willed as an old ladies' home in 1903 by the will of the late Sophia Huntington Parker and the Sophia Huntington Parker Home was formed. In 1912 the Grand Temple of Pythian Sisters of Ohio was incorporated following the organization of this society in 1908 which was followed the next year by taking over the home for the "aged, helpless and infirm female members of the order."

Members of the Pythian Sisters here state the movemnt is one to oust the present anagement.

## 'YES' OR 'NO' WHICH DO YOU SAY?

Folks With Thin, Pale Blood Hesitates—Feel Uncertain

SHOULD TAKE PEPTO-MANGAN

Red-blooded Men and Women Know What They Want To Do And Do It

It may be you are just recovering from a sick spell—or may be your system is run down and your blood so weak that you are in a poor shape to resist infection—

But if you don't feel and look robust you are not robust. Such state is often due to weak blood, not enough red blood cells, a condition known as anemia.

The best remedy for anemia (bloodlessness) with its low mental and physical vigor is Gude's Pepto-Mangan.

Pepto-Mangan supplies the weak watery blood with the very elements it needs to put new life into it. It repairs, re-creates, and rebuilds the exhausted blood, the vital fluid of health and life, Try Pepto-Mangan if you are "rundown." It cannot harm you—it will certainly help you unless you have same deep-seated chronic disease requiring the physician's care. Be sure the name "Gude's" is on the package. Without "Gude's" it is not Pepto-Mangan. For sale at all druggists.—Advertisement.

## MANY ATTEND BAPTIST MEET

Twenty-two visiting pastors participated in the opening session of the Regional Conference in the Baptist Church yesterday afternoon and this number is being augumented by the arrival of others for todays meetings. In the evenings, addresses were given by five visitors, among which that of Dr. Bails of Cleveland.

Morning and afternoon sessions of the delegates are being held today, and tonight at the open meeting a number of the pastors will speak and bring to a close a very helpful denominational gathering. The talks this evening will center upon the New World Movement and will doubtless be of great interest to the student of present day conditions and the attitude of Church toward them.

## Big Mexican Army Menaces 'Rebels' In Sonora State

(Continued from Page 1)

The Council of Premiers has finally decided to award Thrace, as far as the Chatalja line, to Greece, with special guarantees for the Turkish populace.

Bulgaria is to have a so-called economic outlet on the Maritza line this decision having been made over the opposition of Premier Nitti of Italy.

During the conference it was said to have been shown that only 30,000 troops, and those lacking adequate equipment and munitions could be thrown into action against Turkey in an emergency.

**British Troops Withdraw**

And this emergency is feared certain as soon as the Turkish Peace Treaty is present. Already British expeditionary troops are withdrawing to the comparative safety of concentration points in anticipation of violent outreaks thruout Turkey.

As for the French garrisons in Silesia, several are reported to be in desperate surroundings, being virtually beseiged by the irregular forces of Mustapha Kemal. As it is considered a military impossibility to reinforce these beleaguered units, they face extinction, it was stated, should the Turks realize the advantage on their side and attack.

The Council of Premiers has decided that the Dardanelles and Bosphorus should be open in war and in peace, no warlike action to be taken in them without the permission of the League of Nations. The Straits are to continue nominally under Turkish sovereignty.

**U. S. Control Invited**

Direct administration of the Straits, however, would be left to a commission in which Italy, France, Great Britain, Japan and the United States, if willing, would be represented as sea powers.

The conference has been informed by the Allied Reparations Commission that starvation conditions are imminent in the Ruhr district of Germany.

Premier Millerand of France, told American correspondents that France was not militaristic, but merely seeks to force German compliance with the terms of a contract, the Peace Treaty, in insisting upon disarmament.

He re-iterated his country's gratitude to the United States for the part Americans played in helping to win the war.

## COLUMBUS USER AN ENTHUSIAST FOR NERV-WORTH

The Greatest Remedy For Nervousness I Have Ever Used" She Says

And Mrs. Birkhimer found this famous family tonic exceedingly helpful in overcoming her other serious, troublesome and painful ills. Thus she told the story and signed her name to it a few days ago:

Nerv-Worth Co.—For more than a year I have been in a very nervous condition. Could not sleep and get any rest. Tossed about the bed all night, and was going down every day. Appetite and digestion in bad condition. I tried in every way and all the remedies I could learn of to rid myself of this terrible nervous condition, but could find nothing until I got a bottle of Nerv-Worth. Three bottles put me in fine condition every way. I can now sleep soundly all night through and feel rested and strong in the morning. Appetite and digestion good and my kidneys no longer annoy me. I think Nerv-Worth is the greatest remedy for nervousness that I have ever used or know of.

# *Cuss 'Hello' Girl and Out Goes Phone, Is Ruling*

"Madame, I shall have to discontinue your service because of your swearing over the phone."

So says the implacable inspector as he proceeds to take out the instrument before the lady's eyes.

That such a thing is not a pipe dream is stated by operators who aver that lots of women let out real old-fashioned fire-and-brimstone epithets over the wires.

The state public utilities commission at Columbus announced that swearing over the phone at an operator or using vile language is justification for discontinuing service to the offending subscriber.

"You'd be surprised," said one telephone operator of several years experience. "Lots of women call us 'd—fools.' And they are far more unreasonable than men.

"Men are rarely personal in their profanity," she continued. "They will swear like troopers at having to wait or at the service, but they always use the neuter 'it' in their cussing.

"The nearest they come to being personal is: "Where in h—l have you been?"

"OLD TIMEY" folks didn't kiln dry lumber, or make shingles out of "culls."

And warren Paints are still made of the same good old fashioned pure oils and pigments as in the "honest to goodness" days gone by.

They are ground and mixed finer, its true, by automatic mills and machinery, but this only adds to their value as the quality of the wood depreciates.

Today as half a century ago, you will find good old, pure, age ripened Warren the "finest choice" of particular painters and property owners.

# BILLY WHISKERS
By FRANCES TREGO MONTGOMERY

When Billy's little band of circus people joined the others they found everything in order, as they were the last company of the six traveling bands to join in the main one.

There was one huge tent with three rings in it where the performances would be given; opening into this was another large one where the animals were exhibited and branching out of this were three others—one where the horses and ponies were kept; another used as

the dressing room, and still another where the circus people took their meals while scattered around were ten or a dozen sideshows.

The cage Billy was in had hardly been put in place when the sides were taken off and he found himself in the large animal tent with the cages around the edge and his old friend the elephant tethered just outside with the other elephants from the different bands, and his elephant friend was talking to his chum, the elephant he had told Billy about, that told such good stories. Billy thought he must be telling one now, for they were both laughing, but you might have thought they were trumpeting had you heard them.

Billy bleated to the elephant and he raised his head and looked in all directions to see where Billy was, but he could not see him, until Billy told him where to look.

"Goodness gracious me! Is that you, Mr. Billy, shut up in that cage? I never expected to see you in a place like that."

"Neither did I ever expect to find myself in one like this," Billy answered, "and what is more, I would rather be dead than stay here. But I will get out yet, don't you fear."

"I bet you will, Mr. Whiskers, for you are a good one at getting out of scrapes as well as getting into them. Let me introduce you to my friend and chum, Prince Nan-ka-poo, as he is called on the show bill."

After the introduction Billy's friend said "Don t look so downhearted. I will get the prince to tell us one of his funny stories so we can have a good laugh. He has just been telling me a capital one."

But before he had time to tell it a man came along with a hose and began to wash out Billy's cage and souse him with water, squirting it in his eyes just to tease him, which Bill thought was a little too much, as it was like kicking a fellow when he was down and could not help himself.

"Just wait, Mr Man with the hose, until I meet you uwhen I get out of here, and if I don't make your body ache, then my name is not Billy Whiskers I am going to give you a butt and hook that will send you half way up a telegraph pole!"

(Tomorrow Billy becomes a different goat).

Does 3¢ = Americanism?

*Did you know that 3c is MORE than the churches average from each member per day?*

WE AMERICANS may be thoughtless. Sometimes we may appear selfish. But when a great need arises, no one can say that we have ever shirked.

Ask any son of France. Ask any soldier of Great Britain. Or ask any Armenian mother or a girl with a red cross on her sleeve or one with a tambourine in her hand.

And now the churches come to us for help—*our* churches. Not begging. Not asking alms. But with heads lifted high facing a task so worthy that we, as loyal Americans, ought to feel it a *privilege* to help.

***Here is the Plain, Unvarnished Truth***

We don't need to be told that the church is the heart of the Nation. We admit its influence for lasting good in our children. We see its stabilizing influence on our communities. We know a little of its great hospitals, its homes for children, its schools and colleges here and abroad.

But most of us do not realize how pitifully inadequate the support of the churches is when compared to the urgent needs.

***Less than 3¢ a day!***

In spite of the great tasks which we expect our churches to carry out, those of us who give to the church—and the number is all too few—are now giving an average of *less than 3¢ a day for all church purposes.*

Less than 3¢ a day.

Shall our churches go on? It is for you to say.

Without your help the work of your church must be just that much less.

Give—and give from your heart as well as from your pocketbook.

**A World Survey Was Made**

Our churches know the needs that must be met. They know exactly how every dollar—every penny—will be used for the greatest good without waste.

A world survey was made by the churches that astounds business men in its thoroughness. County after county was studied; the countries of the world were visited and reported in minute detail.

**How the Interchurch World Movement Originated**

Our churches said: "The task of meeting the urgent needs shown by the world survey is too great for us to do individually as denominations. We must do this work together."

So thirty great denominations are cooperating—each keeping its own purpose and identity—but all working together under the name of the Interchurch World Movement.

Because of this cooperation, it is estimated that over one million dollars will be saved alone in eliminating waste and duplication.
